Question: Use this space for any comments you may have about your discussion, lab, or recitation, etc.

More easily understandable than lecture, helped me learn a lot more than i would've in just lecture

Much better than the lecture. Broke information down to manageable pieces.

Jeffrey is my favorite TA that I've ever had. He is a fantastic instructor and know's a great deal about the material covered and then some. His outlines/notes that he handouts at the beginning of the discussion session are phenomenal and will be so useful to study with for the final exam.
